How to set-up firebase

What you will need:

1. A Google Account
2. A copy of the VitalWave repository
3. Xcode to configure the iOS app
4. Your iOS app’s Bundle Identifier, found in Xcode under Signing & Capabilities

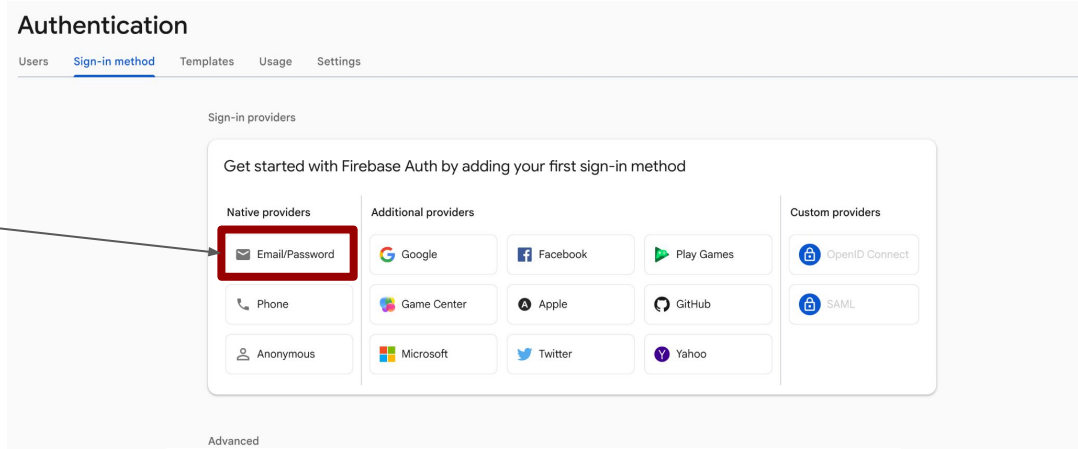

Step 1. Create a project in Firebase

Open firebase console and create a project

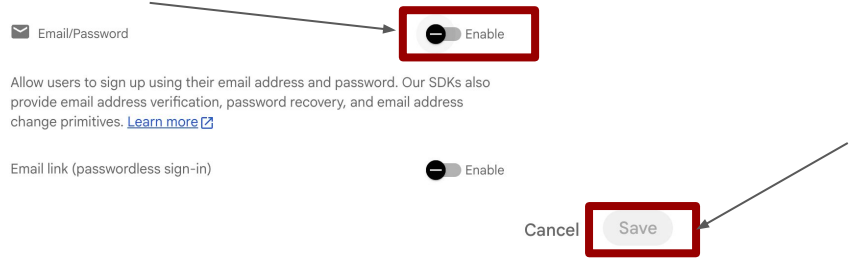

Step 2: Enable sign-in

Enable Email/Password
Under Authentication

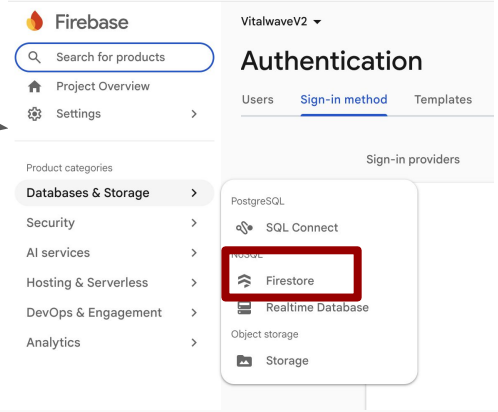

Leave email link
(passwordless sign-in) turned
off

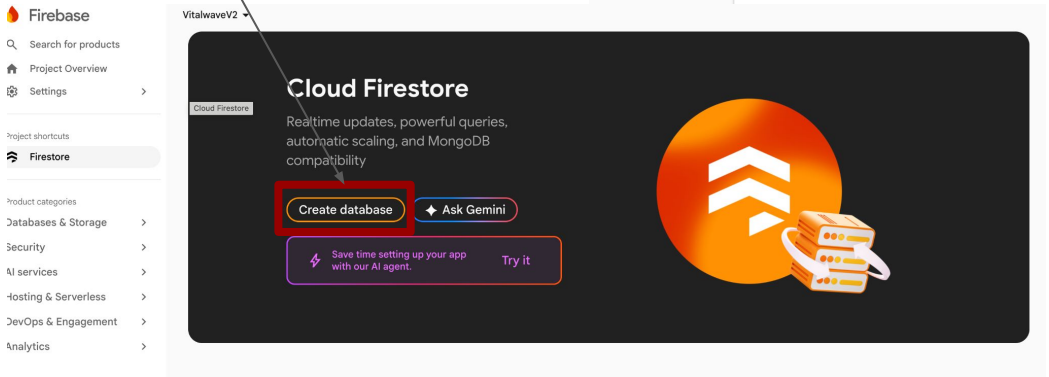

Step 3: Create the database

Create Cloud Firestore

Choose standard edition and select location

Step 4: Configure access

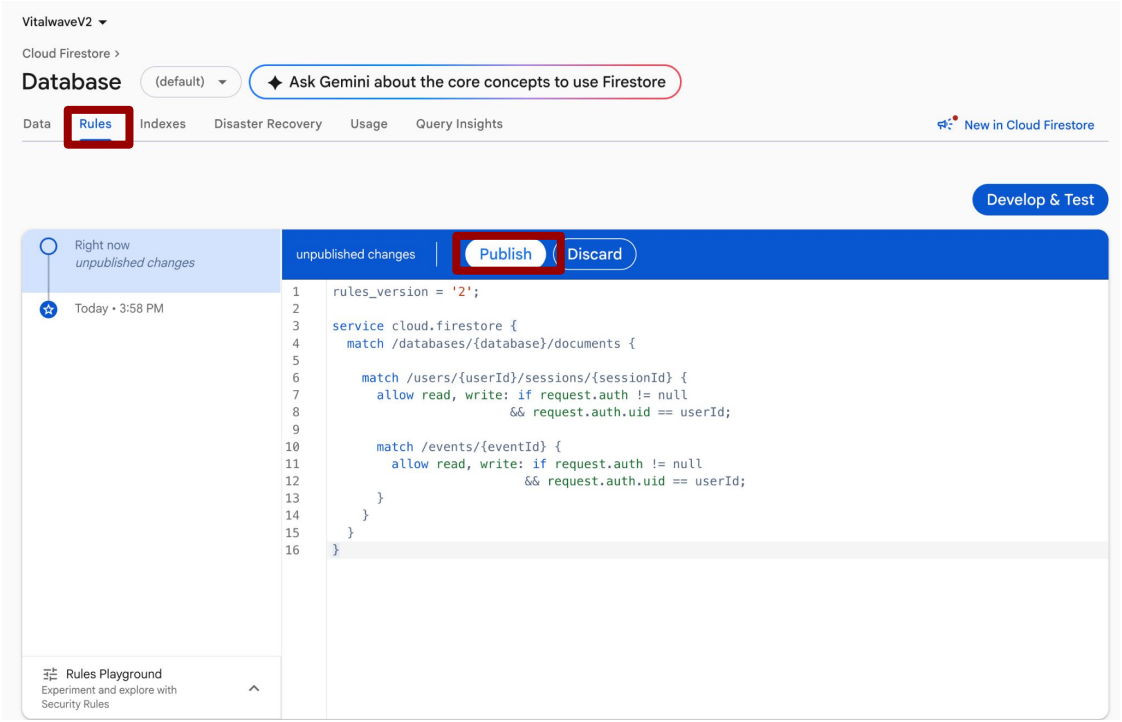

Navigate to Database Rules paste the ruleset below. Then hit publish

```
rules_version = '2';

service cloud.firestore {
  match /databases/{database}/documents {

    match /users/{userId}/sessions/{sessionId} {
      allow read, write: if request.auth != null
                    && request.auth.uid == userId;

      match /events/{eventId} {
        allow read, write: if request.auth != null
                      && request.auth.uid == userId;
      }
    }
  }
}
```

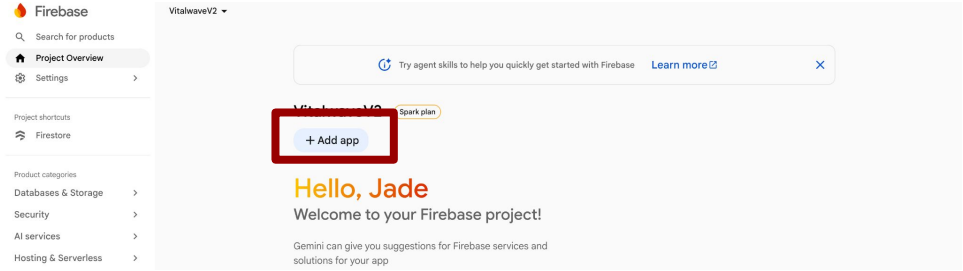

Step 5: Register iOS app

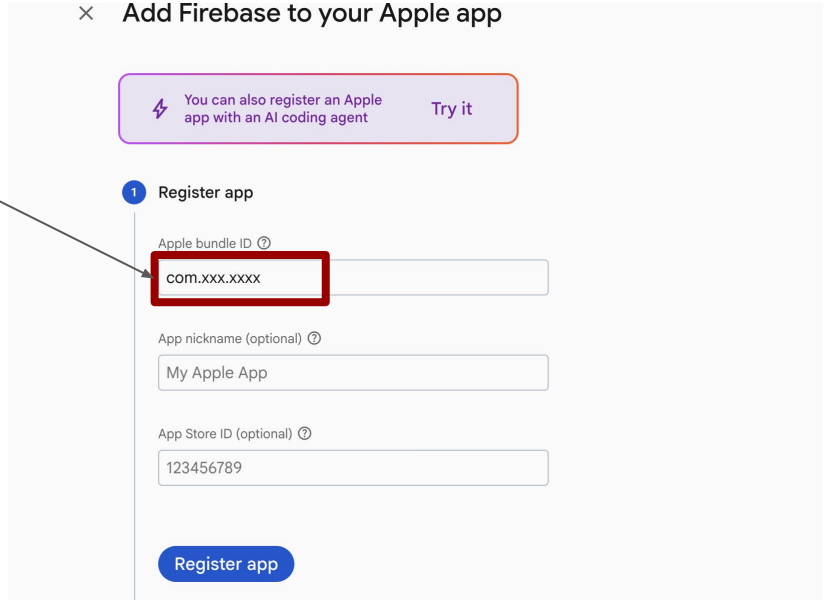

- Open the VitalWave iOS project
- Find your Bundle Identifier in Xcode
- Click the blue project icon in the left sidebar
- Under Targets, select iOS app
- Opening Signing & Capabilities
- Copy the Bundle Identifier exactly (it should be unique to your new project)

Step 5: Register iOS app

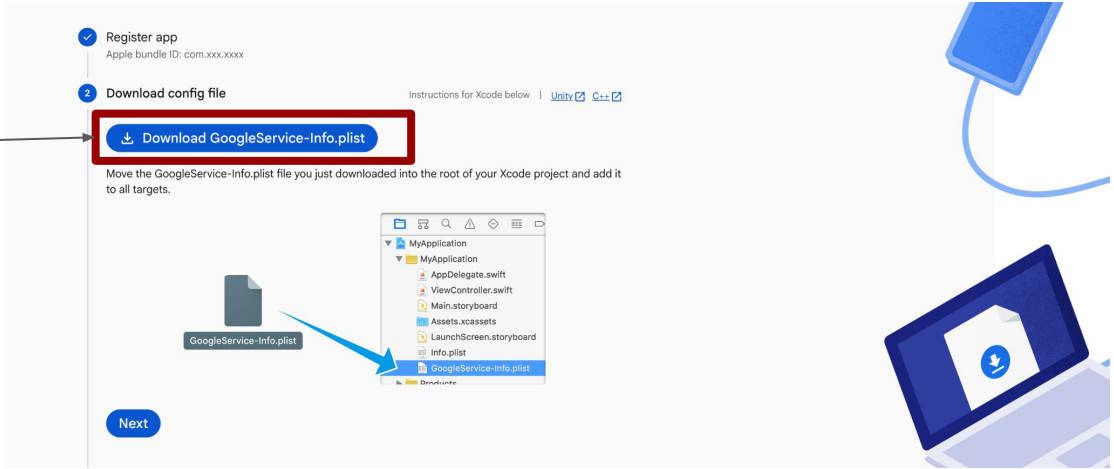

- Register your app in Firebase by:
  - Opening your Firebase project → Project Overview
  - Click Add app → Choose iOS/ Apple
  - Paste identifier into the Apple bundle ID
  - App nickname is optional
  - Leave App Store ID blank
  - Register app

Step 5: Register iOS app

- Download the configuration file
  - Click Download Google Service-Info.plist

Step 5: Register iOS app

- Add it to Xcode
  - If the project already contains `GoogleService-Info.plist`, replace that existing configuration with yours.
  - Drag your downloaded file into the wearable-ios folder in Xcode's left sidebar.
  - Select **Copy items if needed** if prompted.
  - Under **Add to targets**, check the VitalWave app target.
  - Click **Finish**.
